PROFILE

Computer Engineering student (2023-2027, CGPA 8.5) and two-time hackathon award winner, including Winner at Techathon 3.0 among 500+ teams and 1,600+ participants. Delivered an AI-powered civic platform that automated end-to-end report dispatch to municipal authorities within 24 hours. Currently building full-stack applications with React frontends and Java Spring Boot backends, with hands-on experience deploying to cloud environments and integrating third-party APIs.

PROJECTS

EcoBounty - Smart Civic Issue Reporting Platform,

Winner - Techathon 3.0 | 500+ teams | 1,600+ participants | 24-hour build

Tech: React - JavaScript - Node.js - Python - Whisper API - OpenRouter API - REST APIs

- Built both the frontend input interface and full backend pipeline, connecting audio/video capture to Whisper API and OpenRouter AI summarization.
- Implemented automated SOS dispatch routing civic reports via email to municipal authorities, reducing manual escalation to zero.
- Delivered complete end-to-end product within 24 hours, validated across 15-20 full-cycle test reports.

E-Commerce Platform

Tech: React - Java - Spring Boot - REST APIs - Hibernate - HTML5 - CSS3

- Developed a full-stack e-commerce application with a React frontend and Java Spring Boot REST API backend.
- Implemented product listing, cart management, and order processing with a Java service layer, consumed by React components via REST APIs.

AgriGuard - AI-Powered Plant Disease Detection System

Tech: Python - PyTorch - Kaggle dataset - ML pipeline - Data preprocessing

- Trained a PyTorch deep learning model on a Kaggle plant disease dataset to classify early-stage diseases from images.
- Built the complete ML pipeline from data preprocessing through model training to inference, automating disease triage without manual inspection.

TECHNICAL SKILLS

Languages — Java (primary), Python, JavaScript

Frontend — React, HTML5, Tailwind CSS, Typescript, Redux, Bootstrap, Figma, Responsive Design

Backend — Spring Boot, Node.js, Express.js, Hibernate, Spring Security, JWT, Kafka, Redis, JUnit, Maven/Gradle, REST APIs

Databases & Tools — MySQL, PostgreSQL, Git, Docker, Postman, Azure, Firebase

AI & ML — PyTorch, Kaggle, Scikit-learn, Matplotlib, Python ML pipelines

ACHIEVEMENTS

Best Solution Award, Techathon 3.0

22/02/2026

Winner among 500+ teams and 1,600+ participants | 24-hour hackathon

Best Solution Award (AI for Smart Cities), Pandora Hackathon

28/02/2026

JSPM's BSIOTR, Pune

EDUCATION

Bachelor of Engineering - Computer Engineering, <i>Bhivarabai Sawant Institute of Technology and Research, Pune</i> CGPA: 8.5	2023 – 2027 Pune
Higher Secondary (12th), <i>Don Bosco Junior College, Pune</i>	Pune
Secondary (10th), <i>Don Bosco High School, Pune</i>	Pune

CERTIFICATIONS

- MongoDB Node.js Developer Path** — MongoDB University
- Introduction to NVIDIA NIM Microservices** — NVIDIA
- Artificial Intelligence Fundamentals** — IBM SkillsBuild
